

Prairie Harbor Yacht Club Introduces Cutting-Edge Floating Docks, Setting New Standards for Lakefront Development

Modern Upgrades Enhance Safety, Durability, and Visual Appeal

July 30, 2024 Pleasant Prairie, WI – The Prairie Harbor Yacht Club (PHYC) is leading the charge in lakefront innovation with the recent completion of its state-of-the-art dock reconstruction initiative. In a bold move that sets it apart from other marinas along Lake Michigan, PHYC completed the second phase of its modernization project this season with the unveiling of the newly upgraded C Dock. This follows the successful replacement of B Dock in 2022, marking a significant milestone in the club's commitment to providing top-tier facilities for its boating community.

The new floating docks are a testament to advanced construction engineering and technology, featuring 240v power to accommodate the latest boating trends. Designed to endure the elements, the docks boast unparalleled durability and functionality. "Our new docks are built for whatever Mother Nature might have in store, be it summer storms or harsh winter conditions," said Greg Groenke, PHYC Board President. The docks are engineered to withstand 74 mph winds and are anchored by steel piles, ensuring stability even during severe ice conditions and wave action. With premium composite decking, the docks are as visually appealing as they are resilient.

Harbormaster Matt Specht highlighted the project's efficiency and sustainability. "We leveraged the lessons learned from the B Dock project to streamline the C Dock reconstruction, completing it ahead of schedule," he said. Additionally, we were able to recycle a significant amount of material, reducing overall project costs and enhancing our commitment to environmental responsibility."

Prairie Harbor Yacht Club, a dockominium association marina located at 12800 Lakeshore Drive in Pleasant Prairie, has been a premier destination for boating enthusiasts for more than 30 years. Those interested in slip ownership or rental can contact Harbormaster Matt Specht at 262-697-3200 or via email at harbormaster@prairieharboryachtclub.com for more information. The club is also hosting an Open House event on September 8 from 10:00 am to 4:00 pm. To reserve a spot at the Open House, contact Matt Specht harbormaster@prairieharboryachtclub.com or (262) 697-3200.
